Window Measurements (mm)

A	Left Hand Height	
B	Right Hand Height	
C	Width Top	
D	Width Bottom	
E	Reveal Depth	

Guidance Requirements

A - Left Hand Height

B - Right Hand Height

C - Width Top

D - Width Bottom

E - Reveal Depth (please check the reveal depth are the same all around the window, if this is different, please let us know).

We also require a photo of the existing window so that we can ensure there are no obstructions.

In most cases our window frames will fit within the reveal flush with the adjacent wall. In some cases a frame may have to be externally mounted to the outer face of the reveal. This is normally the case if there is not enough room in the reveal depth (E).

Customer Window Photo

Please attach or insert a clear photo of the actual window.
